ENHANCED	✓	✓	✓	✓		
Core Competencies & Practice Areas	**Microsoft Security**	**Azure**	**End-Point Management**	**Office 365**	**Teams**	**Devices**
	Identity	Windows Virtual Desktop	Intune-Autopilot	Exchange Migration	Meetings	Microsoft Teams Rooms
	Compliance	Migration	SCCM	AD/AAD	Calling, Voice	Windows 10 PCs
	Azure Sentinel	Compute	Jamf-Apple	Hybrid/Online	Platform & OCM	Surface Hub

Microsoft Funding Assistance available to Qualified Organizations for:

ASSESSMENT → **POC/PILOT** → **PRODUCTION DEPLOYMENT** → **MANAGED SERVICES**
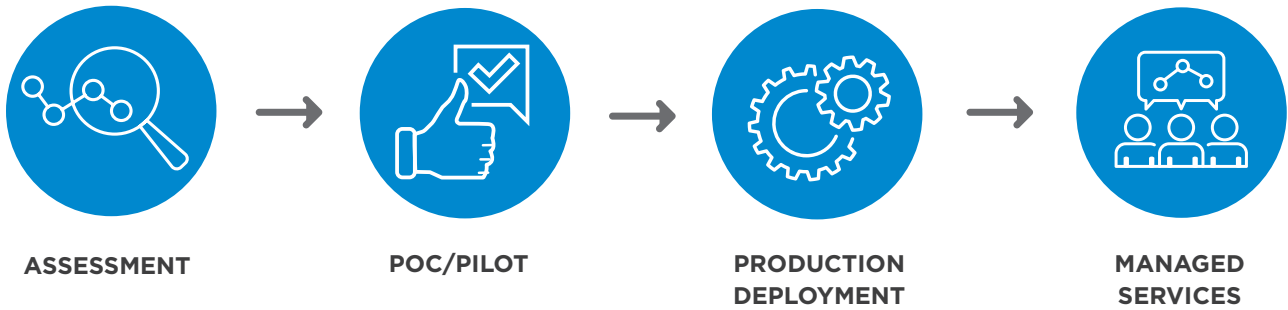

Device-as-a-Service & Resale • Microsoft 365 License ROI Analysis • Change Management

Our enhanced practice areas include:

Security, Compliance, and Identity

Identity and Access Management
Secure connections between people, devices, apps, and data. Increase your security and productivity with a single, holistic identity solution that gives you flexibility and control.

Threat Protection
Detect and investigate advanced threats, compromised identities, and malicious actions across your on-premises and cloud environments. Protect your organization with adaptive, built-in intelligence.

Information Protection
Protect your sensitive data everywhere, even in motion and when shared. Gain visibility and control over how any file is being used with a comprehensive and integrated information protection solution.

Security Management
Gain visibility into your cloud apps and services, build insights with sophisticated analytics, and control how your data travels so you can respond to and combat cyberthreats.

Advanced Compliance
Assess your compliance risk with simplified assessment tools. Intelligently respond to requests and protect data across devices, apps, and clouds.

Azure Sentinel

SIEM Reinvented for a modern world
See and stop threats before they cause harm. Azure Sentinel is your birds-eye view across the enterprise. Put the cloud and large-scale intelligence from decades of Microsoft security experience to work.

End Point Management

Zero Touch Deployments
Modernized laptop deployments require zero touch from IT. Devices are shipped directly to end-users at the office or home. Co-managed with Microsoft Intune, Autopilot Combined with System Center Configuration Manager (SCCM) ensuring the latest security policies, applications, drivers and company policies are current.

Collaboration Space

Ensure consistent, productive collaboration experiences with proactive Management and monitoring of the entire collaboration estate including conference, training & boardrooms, Multi-purpose, Training, WFH, Private Offices, open spaces and more.

IOT Estate

Windows 10 is used for all types of end points servicing specific purposes such as room scheduling panels, language translation, digital signage, wayfinding and more. Using Microsoft End Point Manager your IOT estate can be monitored and managed right within the Microsoft Security Framework, helping to simplifying overall IT responsibilities.

Windows Virtual Desktop

Enable Secure Remote Work

Provide the familiarity and compatibility of Windows 10 with the new scalable multi-session experience for your end users and save costs by using the same Windows licenses.
